

INVEST

The proven path to returns like these:

- Abolition of slavery
- Minimum wage
- Women's right to vote
- Social Security
- End to child labor
- 40-hour workweek

For years politicians said these rights would never happen. But third parties fought for them. Their investment has yielded dividends for generations of Americans.

Green Party

Today, invest your vote in a future worth building:

- Health care for all
- Clean air and clean energy
- A secure living wage
- Racial and sexual equality
- Security built on peace and justice
- An end to corrupt elections

Because when 10% of the people take the lead, **everyone profits.**

Growing people power, from the grass roots.

Social Justice • Nonviolence • Ecology • Grass-Roots Democracy

YOUR VOTE

It's Your Party

Green is the color of grass-roots democracy, an alternative to a corrupt two-party system serving wealthy donors instead of the people. We don't just preach campaign-finance reform: The Green Party accepts no corporate contributions. Elections that are for sale are not free.

A Politics of People

Health care: Affordable insurance for every resident.

Clean air, clean energy: End grandfathered pollution. Fund public transportation and renewable energy. Reduce dependence on oil imports.

A living wage: No working families living in poverty.

Education: More money for teachers, better teaching for all children.

Criminal justice: End the death penalty, racial profiling, and prisons for profit. Revise drug laws that do more harm than good.

Election reform: Clean, publicly financed campaigns.

Sustainability: Balance people and planet. End the blind spiral of unlimited profits, pollution, and consumption.

Making a Difference

In 2001, the Green Party worked for a better Houston by helping Ada Edwards win election to the City Council.

In 2002, 43 Green Party candidates will work for a strong, healthy Texas.

The Green Party

Invest in democracy, at the grass roots.
